

ZERO: 9/11

AN INVESTIGATION INTO

On September 11th, 2001, two hijacked planes hit the World Trade Center. An hour later the twin towers collapsed. Are the two events connected?

A 1 x 110 Documentary Produced by Telemaco

ZERO: An Investigation into 9/11, has one central thesis - that the official version of events surrounding the attacks on 9/11 can not be true. This brand new feature documentary from Italian production company Telemaco explores the latest scientific evidence and reveals dramatic new witness testimony, which directly conflicts with the US Governments account.

Featuring presentations from intellectual heavy weights; Gore Vidal, and Nobel Prize winner Dario Fo, the film challenges assumptions surrounding the attacks. In the words of Italian daily newspaper Il Corriere de la Sera "What results is a sequence of contradictions, gaps and omissions of stunning gravity".

The importance of this film can not be overstated, if its thesis is correct, the justification for declaring the war on terror is built on a series of outrageous lies.

For two hours the voices of Nobel Prize winner, Dario Fo, Lella Costa, Gore Vidal and Moni Ovadia link images and testimonies attacking the official version, melting it all down to a joke for suckers.

La Repubblica

The bomb at the Festa del Cinema is called Zero. An incendiary documentary. The rhythm is breathtaking. The filmmakers entertain and inform with the same dramatic force.
